

5/6 HOMEWORK, TERM 4, WEEK 3

This week's home learning task requires you to be creative and use your skills to write a picture story book.

You are to write a short picture story book (approx 8-10 pages) using the image above. You can either choose to create a book using paper, the computer, or you any other way you can think of. You may want to try using the following website: <https://storybird.com/>

Keep in mind the following when writing:

- Who is your audience that you are writing for?
- Who will your characters be?
- Do you have a problem and a solution?
- How is your story different and engaging?
- Have you edited and revised your writing?
- Do your pictures match the writing?
- Be creative and make it colourful!

Task 2

Once you have finished writing your picture story book, you are to read it to a younger sibling, cousin or any family member.

Remember: Read with expression and animation. Don't forget to show them the pictures.

Get your family member to write you feedback about your picture story book.

- What did they enjoy about it?
- What was their favourite part?
- What could you improve on next time?

Spelling words

dialogue	solution	beginning	trait	audience	characteristics
resolution	characters	personality	narrative	vocabulary	illustrations
